AEROPORTO GUGLIELMO MARCONI DI BOLOGNA S.P.A: PUBLICATION OF THE BYLAW

Bologna 17 July 2015 AEROPORTO GUGLIELMO MARCONI DI BOLOGNA S.P.A announces that the Articles of Association in force, up-dated with the modifications resulting from the conclusion of the Initial Public Offering of its ordinary shares for the listing on the Mercato Telematico Azionario (MTA) – Segmento STAR, managed by Borsa Italiana S.p.A., are available for consultation by the public at its registered offices as well as on its web site: <http://www.bologna-airport.it/en/investor-relations/corporate-governance.aspx?idC=62037&LN=en-US>, and on website of the storage authorized mechanism, 1info (www.1info.it).

***Bologna Guglielmo Marconi Airport**, classified as a "strategic airport" in the centre-north area of the National Airports Plan prepared by the Ministry of Infrastructure and Transport, is now the seventh biggest Italian airport by passenger numbers, with about 6.6 million passengers in 2014, of which over 70% are on international flights (Source: Assaeroporti). Located in the heart of the Emilian food valley and the automotive and packaging industrial districts, the airport has a catchment area of about 10.7 million inhabitants and around 47,000 companies, with a strong propensity to exports and internationalisation and with commercial expansion policies to Eastern Europe and Asia.*

In 2014 99 destinations were served from Bologna: the presence at the airport of some of the largest airlines in Europe along with some of the leading low-cost carriers and the close link with European continental hubs make Bologna Italy's fourth airport in for global connectivity (Source: ICCSAI - Fact Book 2014) and the first in Europe in terms of growth of connectivity in the decade from 2004 to 2014 (Source: ACI Europe Airport Connectivity Report 2004-2014).

As for airport infrastructure, the airport has recently completed a major upgrade and expansion of the passenger terminal, while the capacity of aeronautical infrastructure is deemed adequate to accommodate the expected growth over the coming years. The company's aim is to make Bologna Airport one of the most modern and functional in Italy, an important gateway to the city and region.
